## Executive Summary

Pure vision recycling is a Dubai-based recycling company dedicated to sustainable waste management solutions. Our One-Stop-Centre, built on the Total Waste Management concept, offers comprehensive waste handling and disposal services. By partnering with us, customers can benefit from reduced suppliers, streamlined management time, and simplified processes. Dealing with a single company means one contact, one quotation, one pick-up, one invoice, and one management company, significantly reducing waste management time. We have secured a well-positioned facility in the outskirts of the Jebel Ali industrial area, ideal for the recycling plant we aim to build. Our commitment to the recycling industry extends beyond profit; we strive to contribute to environmental preservation and compete in Dubai's highly competitive recycling sector. Regardless of your business size, we are confident in our ability to provide customized services tailored to your specific needs, budget, and quality expectations. We cater to a diverse clientele, ranging from individuals to large industrial accounts, and are dedicated to delivering satisfaction through our services.

## Our Vision

One of our main objectives is to contribute to a clean and healthy environment using an integrated approach to waste management and our vision is to become the preferred waste management company for the region and to develop a global brand that will partner with our stakeholders and communities to manage & reduce waste from collection to disposal while recovering valuable resources and creating clean, renewable energy.

## Our Mission

Our mission is to proactively anticipate the increasing demand for assistance in the field of waste management, comply with local and national laws and do business in an environmentally friendly manner within an integrated waste management framework. To maintain a steady but profitable growth based on our core values by providing value for money to the clients and communities that we serve through our people.

# Our Services

## Secured Brand Destruction

## Pressurized Cans Recycling

## Electronics & Electrical Recycling

## Textile, Bag & Footware Recycling

## Hazardous Waste Collection and Transport

## Metal Scrap Recycling

## Glass waste Recycling

## Non-Metal scrap Recycling

## Battery Recycling

## Secured Brand Destruction

The reputation of the brand is one of the most important things to consider as a business owner. Securing the proper disposal of these products is key to ensuring the quality of the products remains high

Our secured brand destruction services cater to industries such as cosmetics, perfumes, and apparels etc. We're ensuring the proper disposal and destruction of expired/damaged or counterfeit products is of utmost importance.

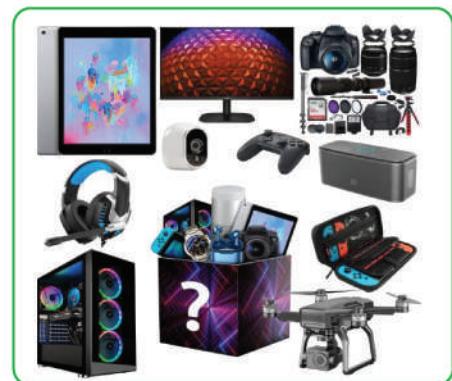

## Pressurized Cans Recycling

We specialize in the safe and efficient recycling of pressurized cans/aerosols, ensuring they are handled and processed according to environmental regulations. Our processes contribute to the reduction of landfill waste and promote the responsible use of resources.

## Electronics & Electrical Recycling

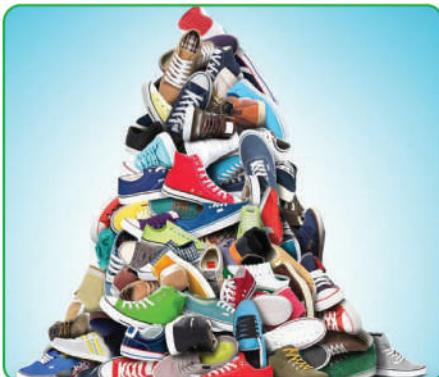

Our expertise extends to the recycling of Waste Electrical and Electronic Equipment (WEEE). We possess the necessary infrastructure and knowledge to handle electronic waste, including proper disposal of hazardous materials and the recovery of valuable components.

## Textile, Bag & Footware Recycling

Our company that specializes in the safe and efficient recycling of textiles or garments, all types of bags, and all types of footwear. We are committed to providing our customers with the highest quality recycling services possible.

We use state- of-the-art equipment and technology to ensure that all materials are recycled in a safe and environmentally friendly manner.

## Metal Scrap Recycling

We also specialize in metal scrap processing, including ferrous and non-ferrous metals. Our advanced techniques allow for efficient recovery and recycling, reducing the need for new resource extraction and promoting a circular economy.

Aluminium Scrap

Iron Scrap

Brass Scrap

Steel Scrap

Copper Scrap

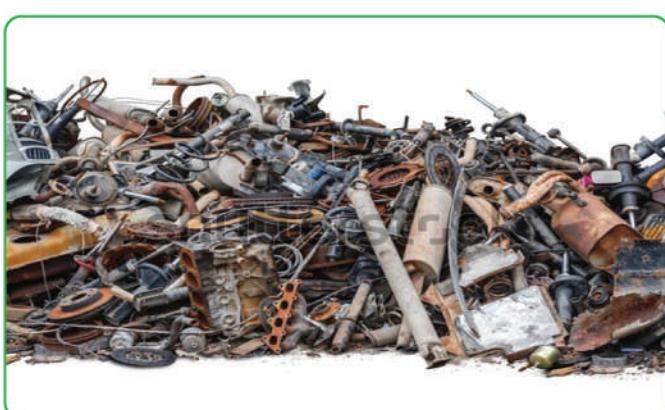

Cobalt Scrap

Silver Scrap

Lead Scrap

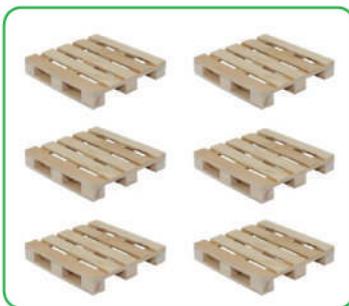

## Glass waste Recycling

Recycling glass is one of the many ways we can help reduce pollution and waste. Instead of letting landfills pile up with glass objects that are a threat to safety and the environment, it can be used again. Glass can be melted down and made into many different forms from drinking glasses to glass fiber, when the glass is taken to a manufacturing plant.

## Non-Metal scrap Recycling

Wood waste processing wood is a widely used material in manufacturing, from furniture to flooring to building materials. Our company is committed to recycling wood materials in an environmentally friendly manner to reduce waste and promote sustainability

## Plastic/Paper/Carton Recycling

These can be considered as the most frequently generated waste products in virtually any business and We have a facility with the necessary machines to recycle plastic, paper, and cardboard
